ABOUT US

Kesar Petroproducts Ltd is a technology driven company, a well-known name in the Chemical Industry and currently one of the leading manufacturers of Phthalocyanine Blue Crude and its downstream products in India. We contribute up to 15% of the entire Copper Phthalocyanine market of India and having a sustainable global presence in 15 countries.

We work on a sustainability model with corporate social responsibility (CSR) at its behest; with the applications of RnD in the delivery of fine-tuned pigments which are high-quality products that are not only safe for the environment but also beneficial to society.

Additionally, we have implemented numerous CSR initiatives designed to benefit local communities.

WHY CHOOSE US?

"What started as a small endeavour as Kesar Petroproducts Ltd; is now a trusted name in the phthalocyanine industry.

Our production capacity makes us one of the most progressive players in the industry.

We have successfully implemented cost-effective methods for enhanced sustainability that aid in timely dispatches of high quality material.

Finally, we at Kesar; are working hard with cost - effective methodology for manufacturing & supply of high grade phthalocyanine pigments."

"Economically integrated solution with focused approach on high quality manufacturing & low costing of finished goods"- is our foundation for Phthalocyanine production.

When you choose us, you can be confident that you are getting a product made with care and precision that will provide long-lasting results.
